

A resource-sharing community for Canadian HIV and hepatitis C service providers

Values statement

Purpose

The values statement outlines the shared values that guide Sage's collection development and information-sharing activities. The values statement creates a basis for common understanding that will be used to evaluate resources or user activities that may be identified as inappropriate within the Sage environment.

Values

Sage values:

1. Evidence-based resources
2. Lived experience and shared experiential knowledge
3. Sex-positive attitudes
4. Harm reduction perspectives
5. Respect for basic human rights and freedom from discrimination including LGBT-inclusive viewpoints
